Purpose of Contact: Building 771/774 DOP Field Modification

Discussion

Glovebox 17 located in Room 114 in Building 771 was permitted on February 16, 2001 as part of Permit Modification 01-01. The Building 771 Decommissioning Operations Plan (DOP) major modification, which was approved on February 28, 2001, was originally submitted in the fall of 2000. As a result, glovebox 17 had not been included in the DOP modification request.

In order to provide consistency for the RCRA closure of permitted units in Building 771/774, a field modification to the 771 DOP was requested. Ms. Onyskiw agreed a field modification is adequate to include glovebox 17 in the 771 DOP. Specifically, glovebox 17 will be added to Section 6 - Table 10 of 771 DOP. This contact record serves as the field modification. The updated table will be transmitted to CDPHE and EPA as part of the next minor or major modification to the 771 DOP.
